

Module #: [Name] Project Brief

Assignment Context:

Explain what skill this project will develop in the student and the outcome that this project will help the student achieve. Explain why this skill is important.

Assignment Description:

Summarize what the final product will be and what technologies will be used to create it.

Due:

- [Day, time]

Instructions:

- [create clear bullet point steps for students to complete the assignment]
- [Step 1]
- [Step 2]
- [Step 3]

Tips:

- Provide tips for students on common mistakes or places to be careful. This is a great place to include frequent questions that you get in emails as well so that you have to email less.

Submission Requirements:

- File Type
- File Name Requirements
- Should the file be compressed or show all layers
- Any sizing requirements, frame rates, pixels (dpi), etc.
- RGB or CMYK
- Any citations, work cited sheets, etc.

Guidelines:

- This assignment is worth [xx] points.
- This assignment is worth [xx%] of your final grade
- Any additional guidelines?

Rubric:

- Attach a Canvas rubric for this assignment that spells out level of mastery and associated point values. Rubric to tell students how they are being assessed.
